Seventy Nazi Divisions At Border Points

By PETER C. RHODES

British United Press. Exclusive Cable to The Edmonton Bulletin.
PARIS, Jan. 18.—Usually reliable sources insisted today that Germany since January 1 has put 70 army divisions, perhaps 1,000,000 men, into position opposite Belgium and The Netherlands.

FIVE MEN DEAD, MANY HURT IN LONDON BLASTS

Empire Capital Rocked By Terrific Explosions In Factory

By SAM ROBERTSON

Canadian Press Staff Writer

LONDON, Jan. 18.—Five persons were killed and an undetermined number injured in a series of terrific explosions in the Royal Gunpowder factory at Waltham Abbey today.

Two accidents in other parts of England took three lives and injured several soldiers. An accident of undetermined nature killed three members of the Queen's Royal Regiment in Dorsetshire and injured a fourth seriously. Several soldiers were injured by a boiler explosion in a garrison in southern England.

Police said the London blasts were accidental.

Several hours after the explosions flames were sweeping the plant and the loss is certain to be great. Flames leaped high in the air and a pall of smoke covered the area of London's northern outskirts.

WINDOWS BLOWN IN
Windows of hundreds of residences and other factories were blown in, but the fire did not spread immediately.

While police ascribed the blasts to an accident, a statement by other officials had not been issued up to late this afternoon.

Grave-faced workers and other relatives of employees kept an anxious vigil. Police established a cordon a quarter-mile from the plant and it was impossible to determine the full extent of the damage.

The extent of the casualties also was difficult to learn as the plant has its own hospital and the injured were not brought out.

In addition to thousands of windows destroyed, many cellings collapsed.

Continued on Page 3, Col. 2.

Store Is Burned
Extensive to extensive damage to WETASKIWIN, Jan. 18.—Fire originating from an overheated stove damaged Simons' Men's Wear at noon today. The building is owned by John Haas, who lives above with his family. Some insurance is carried.

Blast Accidental
GIBBSSTOWN, N.J., Jan. 18.—Explosion of three tons of nitroglycerine at the Bepan plant in the Dupont powder works, killing two men and injuring five, was put down today as an accident.

Helsinki NOT Bombed Declares RED Report

This exclusive picture shows a fiercely-blasting home in Helsinki, photographed after a fire bomb, dropped by Soviet air-men, had hit it. In less time than it takes to tell, the building was the inferno pictured. Minutes later it was reduced to ashes.

MOSCOW, Jan. 18.—A Soviet army communique last night said the transonic report "does not correspond to the facts" in reports attributed to the London Daily Herald that Soviet warplanes bombed a working class district in Helsinki.

"Red army aviation has not bombed and does not bombard the city of Helsinki, still less the working districts of that city," the communique declared.

FARMER UNION FOR PROVINCE DEBATED HERE

Co-Operative Effort For Agriculture Is Stated Need

Union of all agricultural bodies in Alberta as a prelude to the organization of all farmers in Canada was debated Thursday morning at the U.F.A. convention here.

On the resolution which will take place later in the convention.

Multiplicity of farm organizations in the province does not lend itself to co-operative effort or enable us to achieve the results we desire.

The resolution asks U.F.A. officers "immediately to call for every representative of each and every organization which has the welfare of agriculture as its objective, for the purpose of uniting them in one major organization."

"When this provincial organization is properly completed, advances should be made to similar organizations in other provinces for the purpose of uniting agricultural organizations throughout the Dominion of Canada," the resolution continues.

Another resolution asked the U.F.A. to make a study of the Peace River Proposal as being suitable for a Prairie Farm Rehabilitation Act.

An amendment to a new resolution introduced by the Lethbridge branch, A. A. and dealing with water conservation and irrigation was adopted.

Capitalization of \$750,000 to Start Bank For Province

CALGARY, Jan. 18.—The Alberta provincial bank, charter for which is being sought in Ottawa, would have an initial capitalization of \$750,000, Premier William Aberhart said last night following a four-hour public meeting which climaxed the first day of the Alberta Social Credit League convention here.

"It would be just like any other chartered bank, only the control and the management would be vested in the people of the province," Mr. Aberhart said.

There was some difficulty as to whether the enabling legislation should be introduced into the Dominion parliament as a public or private bill, the premier said.

MAYNARD SEEKS CHARTER
Hon. Lucien Maynard, minister for municipal affairs, is now in Ottawa negotiating for the charter for the proposed bank. Scheduled to speak at the convention, his place was taken by Hon. E. C. Manning, provincial secretary.

Ontario had taken Alberta's lead in education, the premier said. He quoted articles from Liberty and Maclean's Magazine.

Premier Aberhart promised to continue on Page 2, Col. 5

Socials Debate Selection Rule For Candidates

CALGARY, Jan. 18.—Social Credit convention delegates today were debating a resolution which would place regulations in the League constitution respecting the selection of election candidates. The effect of the resolution, if adopted, would be to make the final choice in each riding subject to the approval of the zone organizers, acting on the advice of an advisory committee appointed by the board of management of the League.

The following directors were elected at the morning session: Fred W. Whittier, Calgary; Mrs. E. B. Thibault, Bow Island; Mrs. L. B. Barlett, Mirror; A. Horne, Taber; J. A. Maurice, Edmonton; A. E. Goodwin, Lethbridge; and Mrs. H. A. Smith, Wainwright.

Consolidated May Have Hydro Plant At Yellowknife

TRAIL, B.C., Jan. 18.—G. B. Graylock, president of the Consolidated Mining and Smelting Company, of Canada, today said his company is considering applying to the Dominion government for a permit to install a hydro-electric plant at Yellowknife, N.W.T. Graylock said that no definite decision on the application will be reached for several weeks.

W FORCES IN FRANCE
JAN. 18.—(By Wireless)—I have just flown back from

France after a lengthy leave. For twenty-four hours one had that school-boy feeling of coming back to a new school term after the holidays and finding it

all rather bleak and cheerless after home life.

It was bleak up to our forward position today, where I found the ground hard as iron and all the soldiers turned to find during a slight thaw was begin-

Finns Advance 30 Miles Against Reds

By WEBB MILLER

British United Press. Exclusive Cable to The Edmonton Bulletin.
HELSINKI, Jan. 18.—An official communique today reported that Finnish troops had advanced almost 30 miles against the Red army in the important Salla sector of the north central front.

Dispatches to Scandinavian newspapers had reported that the Russian forces in the Salla sector, totalling perhaps 40,000 men, were in retreat to their own frontier after suffering reverses due to extreme cold—more than 50 below zero—and Finnish counter attacks.

The communique said that the Finnish advance in the Salla sector of Lapland totalled 28 miles, and added that Russian troops had been pushed back from Lake Juvu and Lake Maki, where fighting was still in progress.

Eleven Russian bombing planes were said to have been shot down yesterday. The communique indicated that the Red army still held a deep salient on the Salla front, but was being pushed steadily back. Make makes operations difficult.

BACON RATES MADE PUBLIC ON THURSDAY

Actual Control Of Shipments To Be Taken Over January 20

OTTAWA, Jan. 18.—The Canadian Bacon Board headed by Agriculture Minister J. G. Taggart of Saskatchewan takes over actual control of shipments of bacon in Great Britain under the bacon agreement on January 20 and today made public the rates of pay to packers for Wilshire sides which include both hams and bacon.

The prices average \$17.29 per 100 pounds at the auction compared with \$18.01 paid by the British market of supply.

This margin will leave the board approximately 72 cents per 100 pounds which will enable the board to accumulate funds from which to advance the price later on and to pay storage costs on bacon supplies held to augment the short hog run of mid-summer.

PRICES GIVEN
A statement issued by the board gave the following prices Feb. 25: Light Wilshire sides, under 25

MAHARD SAYS NEGOTIATIONS ARE COMPLETE

Alberta Minister In Ottawa In Connection With Provincial Bank

OTTAWA, Jan. 18.—Hon. Lucien Maynard, Alberta minister of municipal affairs, who came to Ottawa yesterday to negotiate for the charter for the proposed bank, said today he had completed his parleys with federal officials.

The report on the discussions, he said, would be made to Premier Aberhart of Alberta. Mr. Maynard talked with Justice Minister Lapointe and he planned to stay in Ottawa a short while longer.

At Prime Minister Mackenzie's office it was said a communication in regard to banking had been received from the Alberta government and replied to, though release for the press must come from the Alberta premier.

CHARACTER SOUGHT
Earlier, in Calgary, Premier Aberhart had made clear that a charter for a provincial bank with an initial capitalization of \$750,000 was being sought with "control and management vested in the people of the province."

A few years ago, Hon. C. A. Dunning, then minister of finance, in a speech in the House of Commons on the subject of monetary reform, discussed the Alberta government to apply for a bank charter if it wished to do a banking business.

Bank charters are obtained by seeking legislative authority. Bills are sought by the bank and the general support. The capital must be \$50,000 at least with \$250,000 paid up before starting business.

Injuries Fatal
CALGARY, Jan. 18.—Ralph Rankin, 77, husband, died in hospital here yesterday from injuries suffered when he fell from a freight car while loading grain last November 22. He had been employed by the Independent Grain Company for 23 years.

Sensor Dies
WHITEWATER, Sask., Jan. 18.—Senator A. B. Gillis, 58, died at his home here yesterday from pneumonia. Senator Gillis came to western Canada from Nova Scotia in 1882. He had been in the Senate for 18 years. Funeral services will be held here Saturday afternoon by a general session.

FINNISH PILOTS DOWN 11 Out Of 18 Red Planes

HELSINKI, Jan. 18.—It was reported unofficially today that Finnish pursuit planes shot down 11 of 18 Soviet Russian bombers which raided Lappeenranta in southern Finland yesterday.

Officially, the Finns reported the Russians drove the bitterest cold in 25 years to drop 150 bombs yesterday in southern Finland, striking at Hangoo (Hangö), Viipuri (Viborg), Viipuri (Viborg), Rauma, Tammisaari and Lappeenranta.

The Russian communique of last night said 11 Finnish planes had been shot down in aerial combats, but did not disclose the location.

The damage was said to be relatively small.

Canada's Response To War Loan Issue Heartens Officials

OTTAWA, Jan. 18.—Response of Canadians to the first Dominion war loan has been "swift and heartening," Hon. Charles Dunning declared in a broadcast address here last night. "Undoubtedly it pleases our allies and at the same time confounds our foes," the former finance minister said.

Speaking over a national network of the Canadian Broadcasting Corporation, Mr. Dunning thanked those who, two days after the loan opened, had subscribed to 25 per cent more than the \$200,000,000 offered.

At the same time, as chairman of the national subscription committee, Mr. Dunning explained why the subscription books are being held open to enable small investors to make a record-breaking cold wave in the Scandinavian peninsula. Reports said the 70 degree level was reached on the Petasco front of Arctic Finland.

Blackout Deaths
LONDON, Jan. 18.—Blackout traffic fatalities, which have exceeded the war casualties of all British fighting services, will be the subject of debate in the House of Commons next Tuesday. Prime Minister Chamberlain announced today.

Injuries Fatal
CALGARY, Jan. 18.—Ralph Rankin, 77, husband, died in hospital here yesterday from injuries suffered when he fell from a freight car while loading grain last November 22. He had been employed by the Independent Grain Company for 23 years.

ARMY BASE IS SAID SOURCE ARMS SUPPLY

Explosive Cordite Powder Is Believed Property Of U.S. Army

NEW YORK, Jan. 12.—A National Guard official hinted yesterday that explosive cordite powder seized during arrest of 17 "Christian Front" members on charges of seditious conspiracy had been taken from a regular United States army base.

A second development was a charge by the Non-Sectarian Anti-Nazi League that it possessed evidence that 27 New York City policemen were enrolled in the "Christian Front" movement.

Police Commissioner Lewis J. Valentine announced Tuesday a departmental investigation had disclosed a suspended police lieutenant had belonged for a "short period" but had withdrawn.

Lieut. Col. Edward Bowditch, inspector general of the 27th Division, New York National Guard, said federal agents had traced "to their source" the explosives and 3,500 rounds of ammunition found in the possession of the alleged conspirators.

In a brief statement implying the powder had come from a regular army base, Bowditch said the National Guard had none of the materials used in munitions manufacture and received only the finished product.

Declaring it had obtained a secret code book of the "Christian Front" listing 27 New York City policemen as members, the Anti-Nazi League said the "surface of this menace has merely been scratched."

Members of the Christian Front have been cooperating with the Christian mobilizers and the German-American Bund and other Nazi groups for months, the league said.

Japanese Warships Attack China Forts

HONG KONG, Jan. 12.—Japanese warships off the coast of Chekiang province were reported yesterday to have bombarded the Chenhai forts guarding the entrance to Ningpo, one of the principal ports still in Chinese hands. Damage was said to be slight.

GOERING FIRM TRIES TO GET RUMANIA PLANT

LONDON, Jan. 12.—Unconfirmed reports reaching London said last night that the Hermann Goering Iron and Steel Trust of Germany is trying to gain control of Rumania's biggest steel and armament plant, the Coposica Gurestia company.

The controlling interest in Coposica Gurestia was formerly held by the Czechoslovak Zbrojovka Munitions company, which also held a controlling interest in the famous Skoda plant.

When Germany occupied Czechoslovakia, the Hermann Goering Trust absorbed Zbrojovka but was unable to touch the stock certifi-

Pressure of Sea Blockade Reduces Reich to Status Of Country in 1916

By J. F. SANDERSON

Canadian Press Staff Writer

LONDON, Jan. 12.—The slow, relentless pressure of the Allies' sea blockade of Germany has reduced the German nation through shortage of food and industrial products to conditions of deprivation experienced in 1916, the House of Commons was informed today.

Ronald Cross, 45-year-old minister of economic warfare—the man who fights Germany with weapons of financial and industrial strangulation—gave that estimate to the House.

STRANGLE NAZIS

"We look forward to the day when we shall so strangle Germany's economic life that she can no longer sustain her war effort," he said.

Mr. Cross said Britain's economic attack, starting with the beginning of this war rather than later, as it did in the last war, had reduced the German (Reichsmark) (living space) to that area ringed by the bayonets of her own troops.

"Confined central was easy," he said. "It has been Mr. Cross' job to marshal the empire's resources in a new technique of fighting on all fronts."

Yesterday he described "pre-emption," or the purchase of goods

to prevent German purchase, as a heartening phase of the economic war.

At the same time it was learned the Chamberlain government intends to step up the tempo of Britain's own industrial life. More shipyards will be opened, more men and women put to work processing the materials of war, and the home production of food will be intensified.

LABOR STANDARDS

Rationing which now is limited to a few food lines will be extended, and buying restricted with a view to reducing imports as much as possible.

Negotiations already are started between the government and labor unions with the object of drafting thousands of men and women into the nation's industrial machine so as to increase production.

No country in the world has such rigid labor standards as Britain and the government has decided they should be modified by the nation's industrial machine so as to increase production.

Inside a factory labor is never interchangeable, a man does one job and only one job because his trade union agreement stipulates that. The government believes these standards should be modified.

After lunching in an officer's mess, the King drove to what was formerly a civil airbase. Here he inspected several hundred troops.

Government Asked To Amend Rulings On Soldier Mothers

WINDSOR, Ont., Jan. 12.—Windsor Board of Trade passed a resolution Wednesday that the Dominion government be asked immediately to amend regulations of the Department of National Defence to provide for payment of dependent allowances to mothers of enlisted men, nowhanding that some of them may have been receiving relief assistance at the time they enlisted.

WELL-TAILORED GENT IS ROBBER OF TWO STORES

NEW YORK, Jan. 12.—Arrest of a sartorially perfect Frederick Shee, 28, yesterday ended a midtown chase after a fashionable jeweller store and a Fifth Avenue haberdashery had been held up and robbed. Police said they found on the well-tailored Shee \$200, eight wrist watches, a pocket watch and a roadbook boutonniere.

The controlling interest in Coposica Gurestia was formerly held by the Czechoslovak Zbrojovka Munitions company, which also held a controlling interest in the famous Skoda plant.

When Germany occupied Czechoslovakia, the Hermann Goering Trust absorbed Zbrojovka but was unable to touch the stock certifi-

cates of the Rumanian company, which had been deposited in a London bank.

Qualified sources said that at the outbreak of the war the Coposica Gurestia stock in London was impounded as "enemy property."

KING GEORGE INSPECTS UNIT DURING TOUR

Reviews Southern Military Division In Extensive Army Tour

LONDON, Jan. 12.—The King inspected a British army division in the southern military district yesterday during an extensive tour featured by repeating friendly chats with the men and saluted by the antics of a stray dog with a military decorum.

After travelling overnight by train from London, the King drove to the market square of a small town, where more than 500 troops were drawn up.

Wearing the khaki uniform of a field marshal, he reviewed the men chatting from time to time with officers, non-commissioned officers and privates. After the inspection the men cheered the King who smilingly saluted in reply.

An incident occurred when a stray dog attached itself to the Royal party and vigilantly followed the King as he inspected the men, halting alertly every time the King stood still and following him until he entered his car.

Accompanying the King was Lieut. General Ronald Adam, deputy chief of the Imperial General Staff. While His Majesty was inspecting men at one village, a young woman in a fur coat came up to him and chatted with him for a few moments. She was Miss Anne Bowers-Lyon, cousin of the Queen, who had moored over from her nearby home.

After lunching in an officer's mess, the King drove to what was formerly a civil airbase. Here he inspected several hundred troops.

Government Asked To Amend Rulings On Soldier Mothers

Two Men Killed As Dupont Plant Has Explosion

GIBRALTAR, N.J., Jan. 12.—Three tons of nitro-glycerine exploded yesterday with a roar heard 30 miles, killing two men and injuring five at the Dupont powder works.

The possibility of sabotage drew immediate attention of state police and the Federal Bureau of Investigation. The plant had been heavily guarded.

So great was the mid-morning shock that it was felt in Lakewood, N.J., 65 miles away. It left only a smouldering crater, where the little isolated dynamite mixing building stood.

RECORD YEAR FOR TOURISTS IS EXPECTED

Canada Travel Believed Assisted By Present War In Europe

OTTAWA, Jan. 12.—Tourist traffic in Canada next season should be much heavier because the war has shut off Europe as a tourist playground and because foreign exchange rates are to the advantage of United States visitors, according to superintendents of national parks meeting here yesterday.

The superintendents of Canada's 19 national parks from Nova Scotia to British Columbia have been in session since early in the week, discussing park administration under chairmanship of F. H. W. Williamson, controller of parks under the mines and resources department.

National parks are growing more and more popular with both Canadian and United States tourists, and the increasing need for accommodations for tourists was a topic of discussion, camps have been provided, but there is a need for more bungalow camps and boarding houses operated under private enterprise.

Preparations for the official opening next July 1 of the new highway linking Banff, Alta., and Jasper Park were described. The scenic road along the mountain tops, passing by the largest herd of the Arctic, will bring the two Alberta towns only 186 miles apart by road instead of the present route of 511 miles.

HORNBY SEES BIG FIELD FOR IMMIGRATION

Settlement Of British In Canada Has Favor With Lethbridge Man

MONTREAL, Jan. 12.—Small-scale British immigration into Canada during the war was suggested yesterday by Brig. General H. L. Hornby, of Lethbridge, Alberta, in an interview here.

General Hornby was on his way to Western Canada after a tour of the Maritime Provinces which he described as strongly in favor of immigration from Great Britain. "Although England at present means a great part of her manpower for prosecution of the war, there must be many families whose heads are unfit for front line service but who would make very useful settlers overseas," he said.

"At the same time there will be a continued evacuation from the front lines of young men incapable for further service there but who would be fit for an agricultural life."

General Hornby said both the Maritimes and British Columbia have an abundance of land available for agricultural purposes. He thought immigration in conjunction with organized land settlement would solve many of Canada's economic problems.

British Interests In Czechoslovakia To Get Repayment

LONDON, Jan. 12.—British interests which suffered financial losses when Germany occupied Czechoslovakia will be repaid by the government with the balance remaining of 16,000,000 loan voted to Czechoslovakia early last year, under the terms of a bill introduced in parliament yesterday by the Chancellor of the Exchequer, Sir John Simon.

Red Paper Hoping For Pap Agreement

MOSCOW, Jan. 12.—Hope that the new Japanese cabinet would try to improve Japan's relations with Soviet Russia was expressed today by the army newspaper Red Star.

Air Chief Marshal Reaches Vancouver On Inspection Trip

VANCOUVER, Jan. 12.—Air Chief Marshal Sir Robert Brooke-Popham, head of the British Air Mission to Canada, arrived in Vancouver last night on a 10-day tour of the Pacific coast.

Earlier plans called for Sir Robert to inspect air defences here and

Blues, Soft Greens Men's Style Colors

12 NORWEGIAN

2 NORWEGIAN VESSELS SUNK BY TORPEDOES

14 Of Crew Of One Ship Missing—Nazi Boat Sunk By Mine

OSLO, Jan. 18.—Two Norwegian ships were reported today have been torpedoed and sunk within the past 24 hours. Fourteen of the crew of one vessel were reported missing, all aboard.

Owners of the 1,300-ton Norwegian steamship Fagerheim report she had been torpedoed in the Bay of Biscay while on a voyage from South Africa to the United Kingdom. Fourteen members of her crew were missing.

A group of survivors from a torpedoed Norwegian vessel, presumably the Fagerheim, reached Vigo, Spain, last night aboard the German merchantman Iris. Five persons were injured, including the captain who had two legs broken.

Reports were received that the second Norwegian ship, the 1,100-ton Enid, had been torpedoed at

German Vessel Sinks Off Aaland Islands

STOCKHOLM, Jan. 18.—The 2,342-ton German steamship *Thyssen* sank today off the Aaland Islands at the mouth of the Gulf of Bothnia, after striking a mine believed to be Swedish.

The crew took to the boats while the ship was sinking, and at midday were drifting southward.

The vessel was carrying iron ore from the Swedish port of Lulea to Germany.

LONDON, Jan. 18.—The crew of the 5,949-ton British vessel *Calmar*, which was struck by a German U-boat, landed at a southwest port today, reported their ship sank within an hour after striking a mine in the last night off the English west coast. There were 46 in the crew.

LONDON, Jan. 18—Reuters New Agency reported today that the 80-ton Danish steamship Olga was wrecked on the rocks of southern Norway near the Torungen lighthouse. The crew of 18 reached Arendal four hours after the ship went aground.
